LETTER OF INTEREST TO PARTICIPATE AT CANNALATAN-ISN SCHOOL

"Investigating cannabinoid function in the nervous system: mechanism of action and biomedical implications"

Name:

Affiliation (academic/scientific):

Thanks for your interest to participate in the school. Owing to sanitary restrictions, logistics and the aim to foster an interactive learning environment we have a limited number of seats. In addition, we will have a quota for students attending online or on site (only for morning talks). The school is free of charge, and we will provide travel-accommodation fellowships as far as the budget allows us. Selection will guarantee no ethnic, gender/sexual, religion discrimination and promote geographical distribution.

Background (10 lines max). Please describe your background, experience on basic neuroscience, pharmacology, psychiatry, or cannabinoid field related aspects.

Provide a brief title that describes the scientific or academic work that you are currently involved or you wish to develop in the future, in relation to the school topic. Reference name of supervisor (if any).

Reasons to apply (10 lines max): Describe your expectations for the school, how the school can improve your career, your future plans on the cannabinoid field.

We kindly ask you to answer the following questions:

1- If I am not selected for the whole school (talks and experimental modules), I am still interested to assist in morning talks only: **A,** online. **B,** on site. **C,** decline

2- If selected: A, I have my own resources for travelling/accommodation or I am a CannaLatan network member, **B,** I request fellowship support (will cover the majority of these expenses).

Send this LOI to igalvero@ucm.es and samia@usp.br before March 15th, together with a short CV.
